LUSH LEGACY LIVING

Earthen Hues' Promise

At Earthen Hues, we carry our legacy into every project, crafting thoughtfully curated plotted community that blend nature, design, and enduring quality. Each development reflects our commitment to creating homes that resonate with purpose, beauty, and timeless living.

A Community Where Nature and Life Align

Life Finds it’s Balance

Lake Botanica brings nature, lifestyle and modern yet timeless design together. Nestled besides a quarry lake in prime North Bangalore near the upcoming Prestige Forum Mall, it offers 51% green spaces, over 5000 native trees, themed gardens and thoughtfully designed landscapes.

The Offering

Lake Botanica has been created to bring modern living in harmony with nature, with wide plots, green corners and a quarry lake where work, leisure and family life flow together.

Project Profile

Lake Botanica presents 261 premium villa plots, ranging from 1200 to 3000 sq. ft. More than half the land is set aside for gardens, parks, and landscaped stretches. The result is a rare mix of privacy, community, and a lasting connection to nature.

Premium villa plots from 1200 sq. ft. to 3000 sq. ft.

Secure, gated community with smart infrastructure

100% concrete roads built for durability

Fully underground utilities for clean layout

51% of land reserved for gardens and landscaping

Approved plan with multiple parks and community spaces

Infrastructure that Sets Standards

Robust infrastructure with 100% concrete roads, underground utilities, and secure gated layout. A private driveway and thoughtful planning create a calm, well-structured community built to last.

Choice of Plots

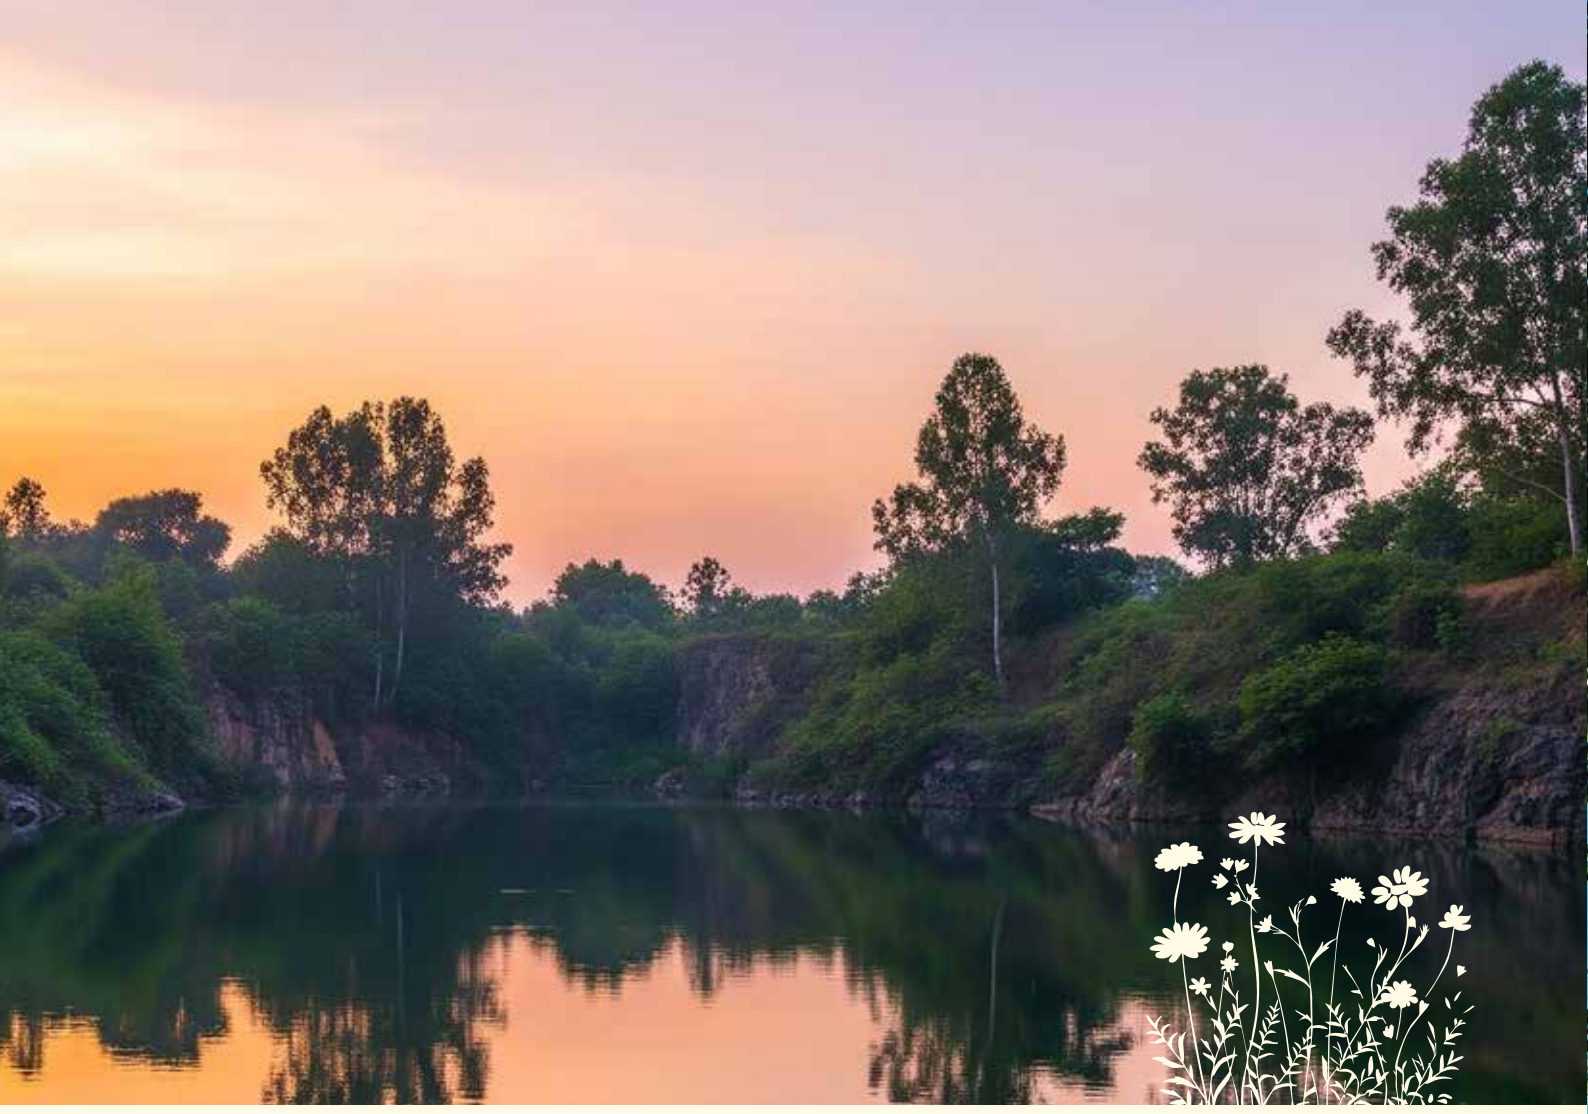

From compact retreats to expansive family homes, the plots come in a range of sizes. Each plot is sized with the intention of letting you build a home that suits your vision while staying close to nature.

A Community with a Purpose

The community balances private plots with shared parks, walkways, and greens. Wide roads, rainwater harvesting, and sustainable infrastructure ensure that the community not only functions well but matures gracefully, staying in tune with the land it rests on.

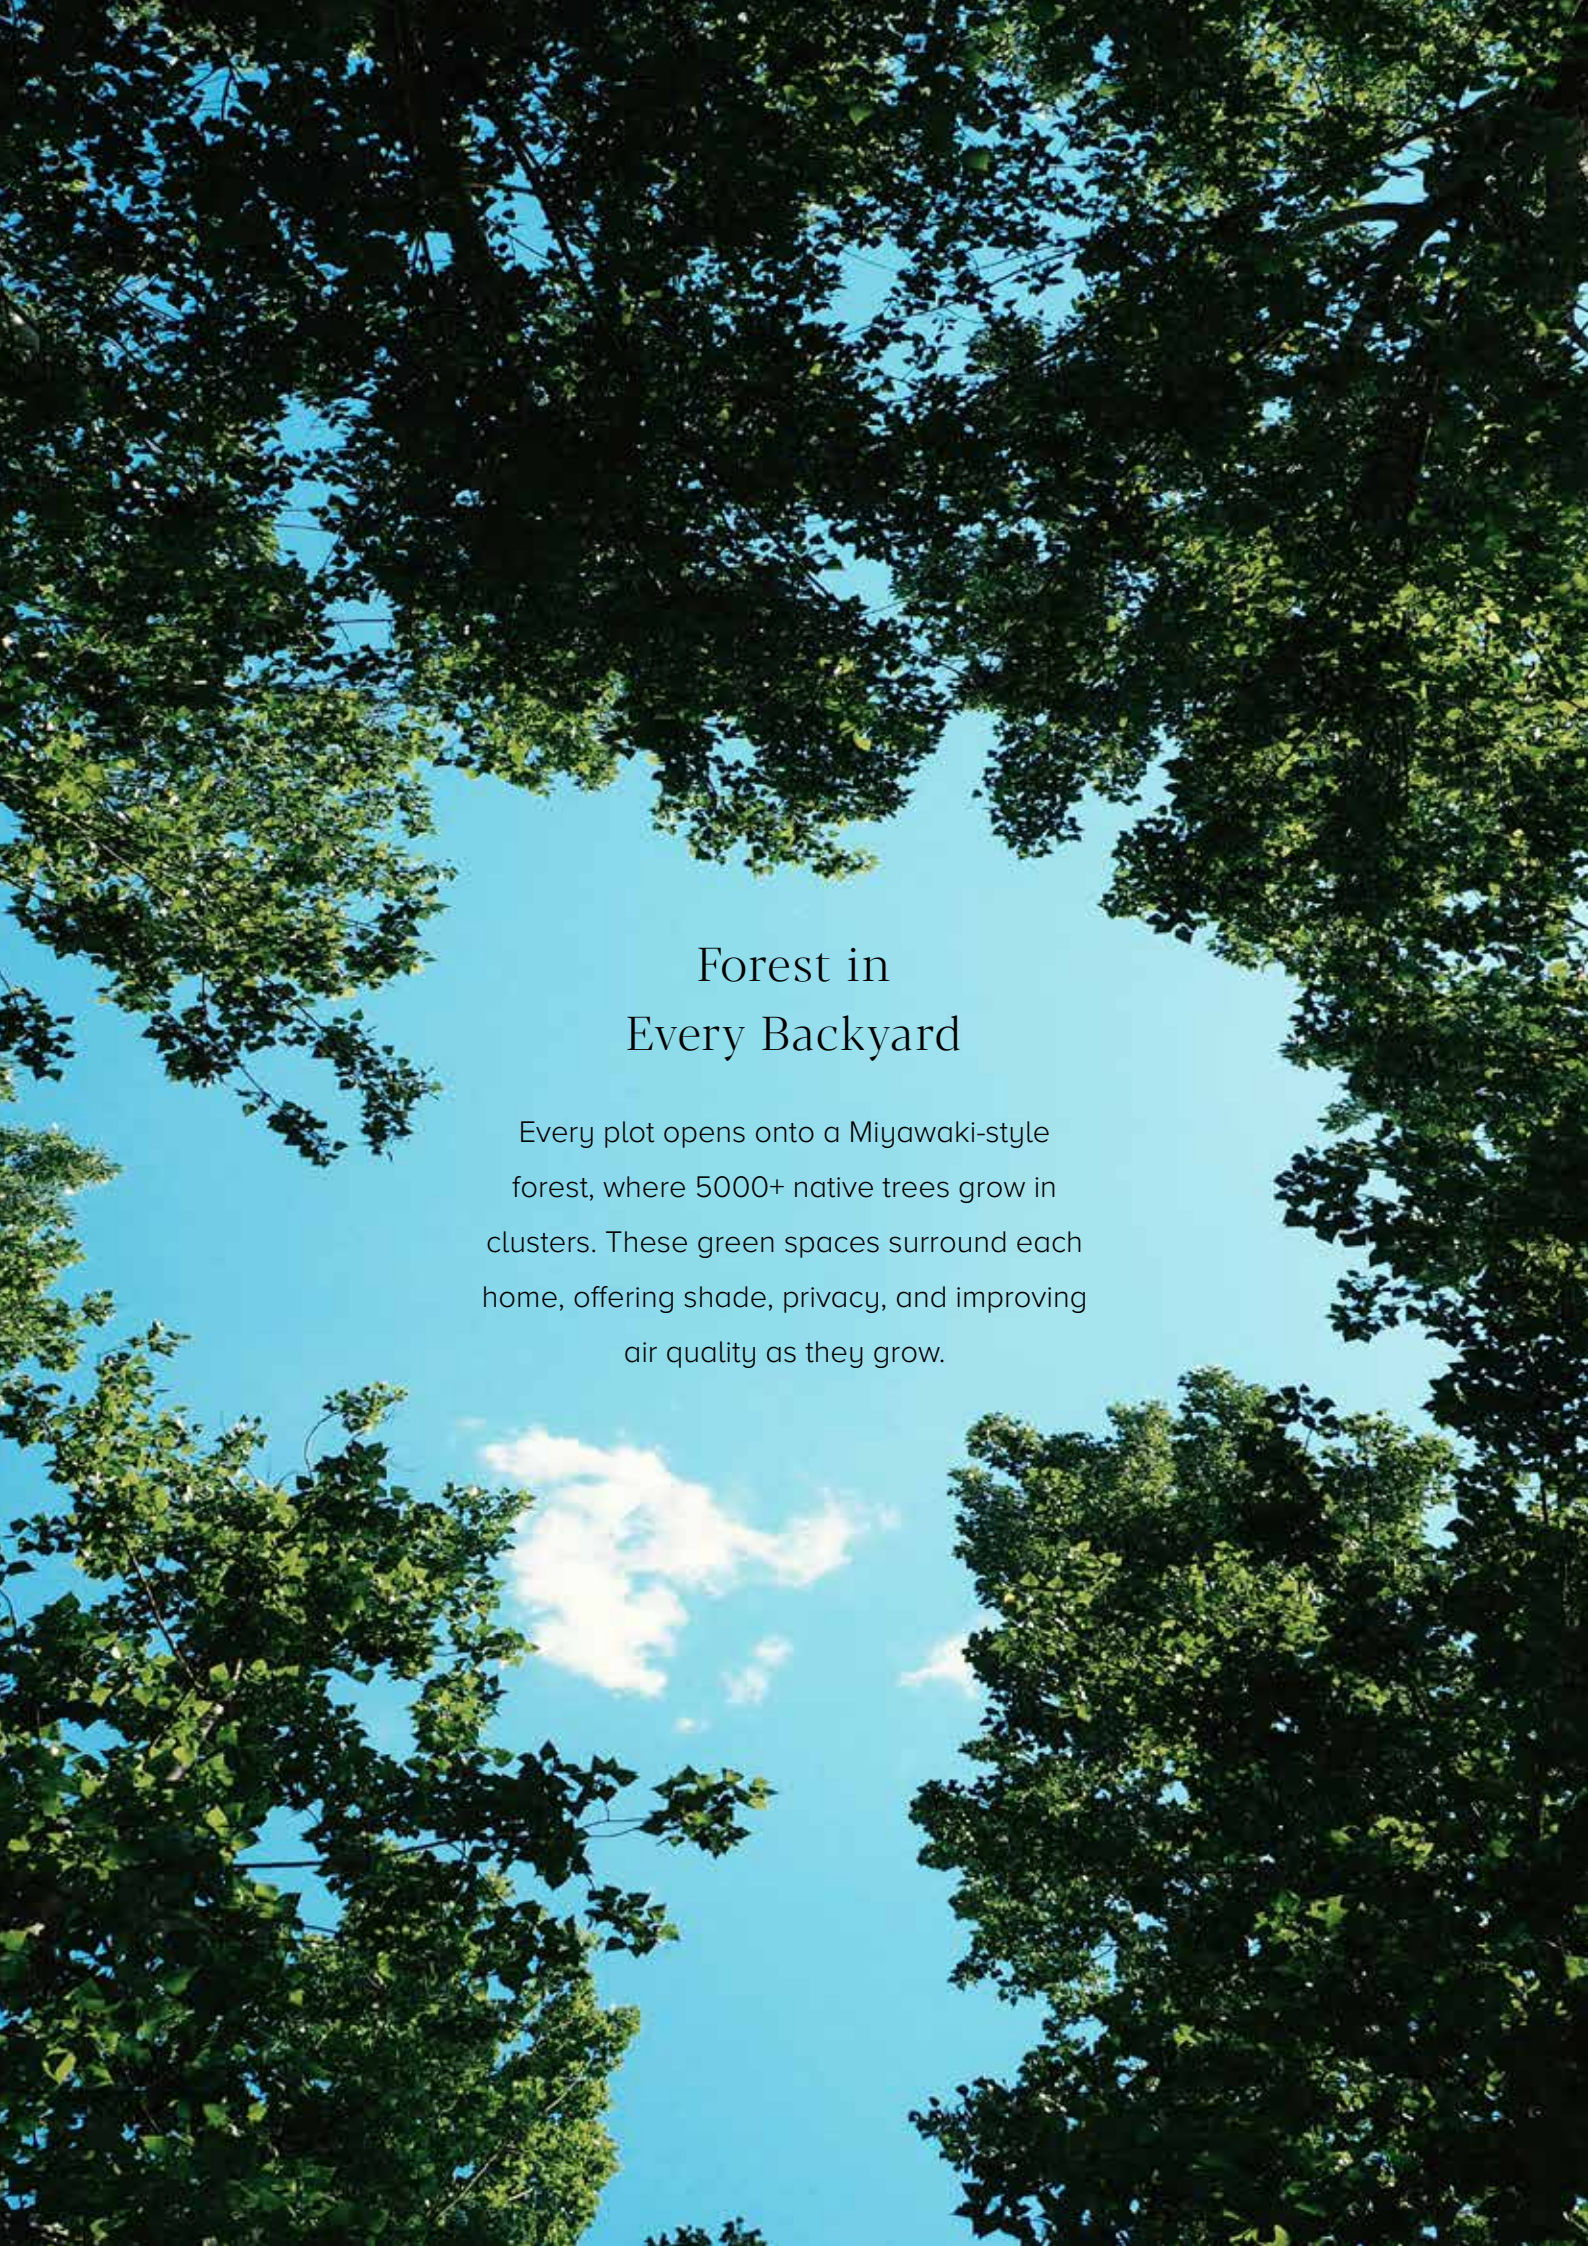

The Quarry Lake

Lake Botanica nestles beside a beautiful granite quarry lake that gives the place its own charm. The stone and moving water create changing light and shadow through the day, bringing a calm, natural feel to the community.

Forest in Every Backyard

Every plot opens onto a Miyawaki-style forest, where 5000+ native trees grow in clusters. These green spaces surround each home, offering shade, privacy, and improving air quality as they grow.

More Than a Community, A Family

Our vibrant outdoors feature open lawns, winding paths, soft lighting, a fully-equipped children's playground, sports courts, and a refreshing pool. Take a peaceful walk or gather with friends—the choice of lifestyle is yours.

Sustainably Designed Living

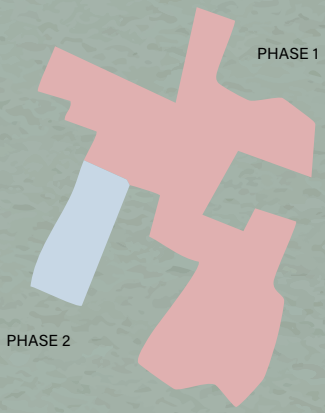

We conserve every drop through site-wide rainwater harvesting, using natural contours so rain flows into aqueducts. Indigenous gardens and 5000+ native trees grown with Miyawaki methods enhance biodiversity, fresh air, and thriving habitats.
